New business:

- Introduction/topics of discussion outlined
- Our 2018-2019 enrollment projections show we will have 797 students, which is down 35 students from the 2017-2018 projections.
- If our special education population were included in those numbers, our student count would be 830
 - We are gaining a Pre-K autism program and are keeping our existing Pre-K program
- We will lose one teaching position as a result, but personnel changes within the building ensure that we won't lose any teachers
- Transfer season will occur from mid-March to mid-April
- Various budget scenarios were discussed but none were voted on. Will vote during the February 7th meeting

Future business:

- Finalizing School Plan of Operation: Strategic Budget and School Performance Plan
- Next Meeting: February 7th, 2018
